Yale 3* Cylinder Upgrade

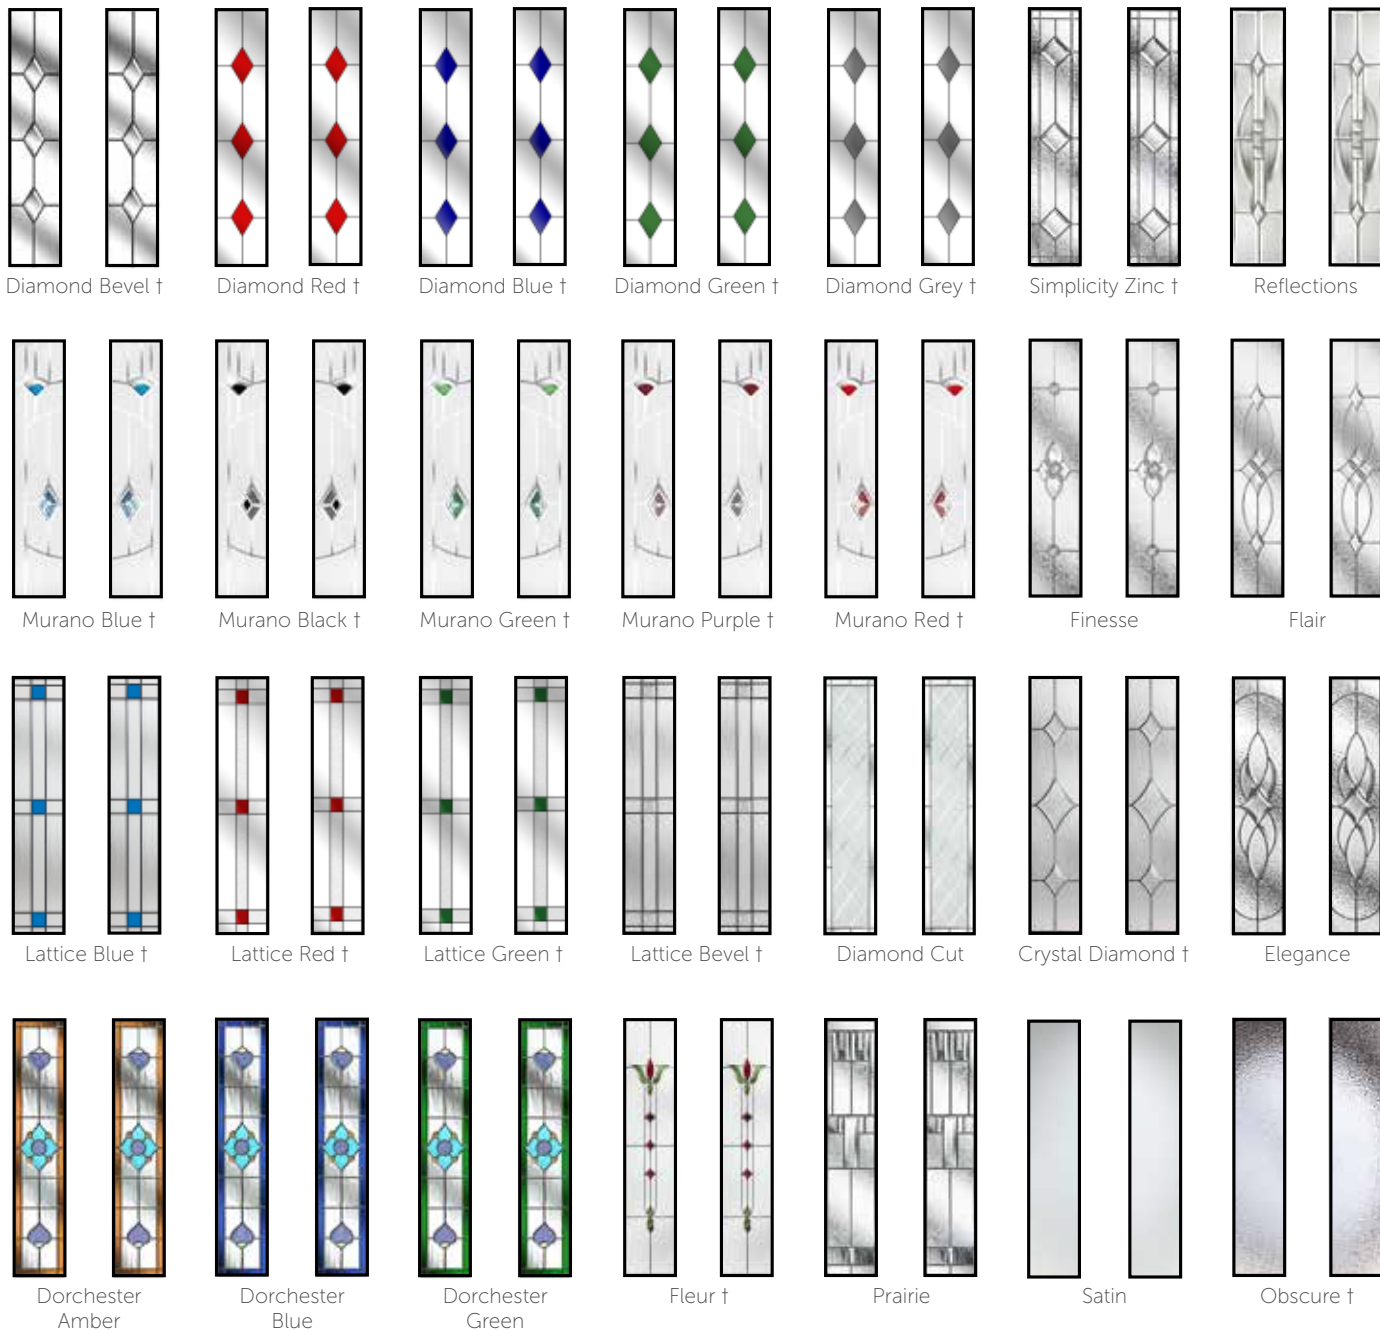

We also supply the Yale Platinum Euro Profile cylinder across the composite door set range. This cylinder is an anti-pick, anti-bump, anti-pull, anti-drill and anti-screw solution offering the full 3* rating, making it one of the most secure cylinders available. LPD Doors are committed to the safety and security of you and your home.

BESPOKE RANGE GLAZING OPTIONS

A complete range of decorative glass

We have selected the most popular glazing options best suited to our composite door sets. From contemporary designs to more traditional glass styles, we know you will find the perfect look for your door. Although not available in every door style, the following images give an indication of colour and appearance.

† Our decorative glazing designs are supplied with a choice of backing glass from Global Glass

Backing Glass Options

FIRE DOORS

Fire safety from an industry leading product

The GRP composite fire door set offers the same outstanding quality and excellence in class as the rest of the composite door set range but with a hidden safety benefit. When installed, they will resist fire for a period of 30 or 60 minutes - depending on selection, in accordance with British Standards.

Ideal for flats and apartments, many of the styles can be ordered from us as a fire door option, whilst the Erewash is available in both 30 and 60 minute options.

The fire door sets are available in six of our bestselling Classic colours, proving that choosing fire safety doesn't mean you have to compromise on style.

Glazing Options

As standard, our fire doors have Pyroshield 2 glazing with a choice of Clear or Stippolyte to the external pane - see page 51.

Accreditations

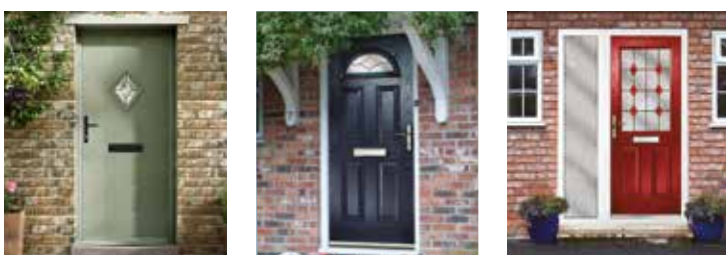

A fire resistance test performed on single leaf doorsets. Test conducted in accordance with British Standards.

QUALITY CONSTRUCTION

LPD Doors are renowned within the industry for their quality and craftsmanship. Our composite door sets protect your property from the elements and your family from intruders. The door sets combines the very latest technologies to produce an industry leading product.

The GRP facing (Glass Reinforced Plastic) looks like wood but is unaffected by variations in temperature. When combined with a modern sub-frame, insulating core, modern outerframe and a fantastic hardware range, the composite door sets deliver a high security, weather-tight door that will not bow, warp, crack, splinter or dent. Combined with side and top lights, they provide stunning looks that will add instant appeal to any home.

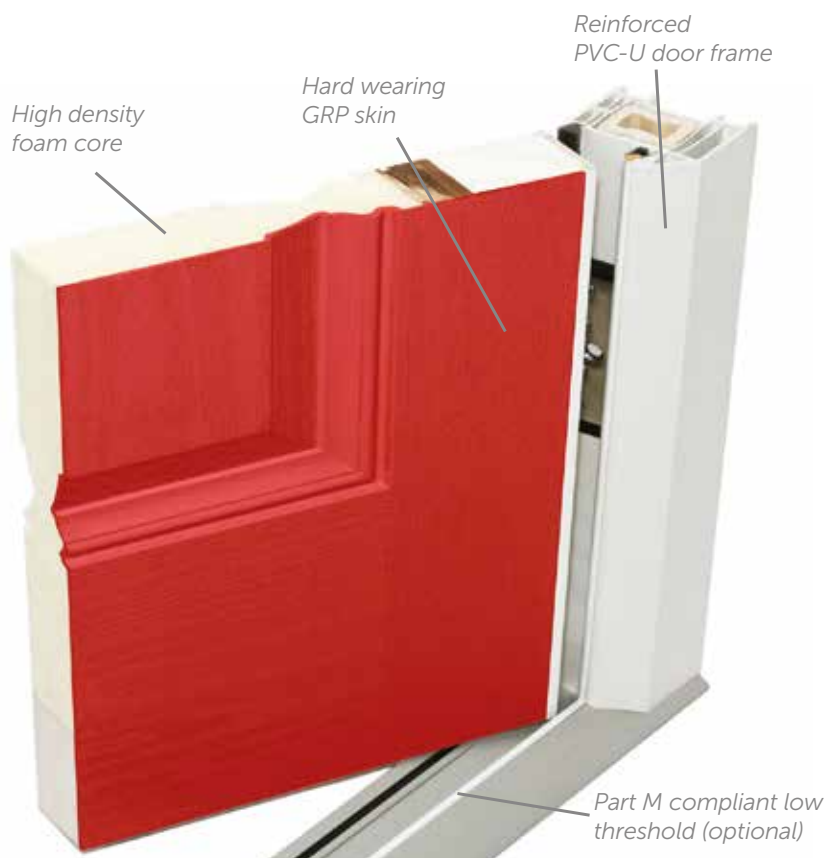

Strength and security

- High impact resistance fiberglass
- 44mm thick leaf for increased security
- Incorporating robust materials for increased strength
- Multiple hardware choices
- Excellent thermal efficiency

Suitability for a multitude of purposes

- Each door is made to order
- Ideal for both domestic & commercial properties

Construction

High density foam core

With 40mm of high density foam at its heart, your composite door set provides unbeatable thermal performance

GRP skin available in 11 colours and woodgrains

For long-lasting good looks and durability, our composite door sets use a GRP skin that is both hard wearing and low maintenance

Part M compliant threshold option

Not only ideal for wheelchair access, the low threshold of our composite door sets means easy access for everyone

Reinforced PVC-U door frame

Due to the reinforced PVC-U frame, our composite door sets meet unrivalled standards in security with very little maintenance

ENERGY RATINGS

Save money and the planet with our composite door sets

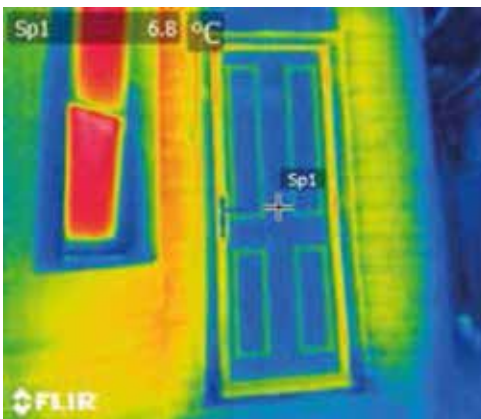

Energy efficiency is important to all of us. We all want to be more energy efficient, to reduce our fuel bills and to protect the future of our planet. Our composite door sets are the perfect way to improve the energy efficiency of your home.

As standard, our doors without glazing panels enjoy an A+ rating while glazed doors carry a still comparatively impressive B rating. You will also see a U-value rating on all our doors which is a technical measurement of heat loss through a structural element. The lower the U-value the better the energy efficiency.

Low E, energy efficient glazing

Glazing in a GRP composite door will always reduce its thermal efficiency but by installing a Low E option wherever possible, we can help negate the effect, which is better for the environment and better for your pocket.

Showing thermal efficiency of our composite door sets - blue being the most energy efficient and showing very little heat loss

Energy efficiency as standard with our composite door sets

TOPLIGHT, SIDELIGHT & PANEL OPTIONS

Sidelights & Toplights

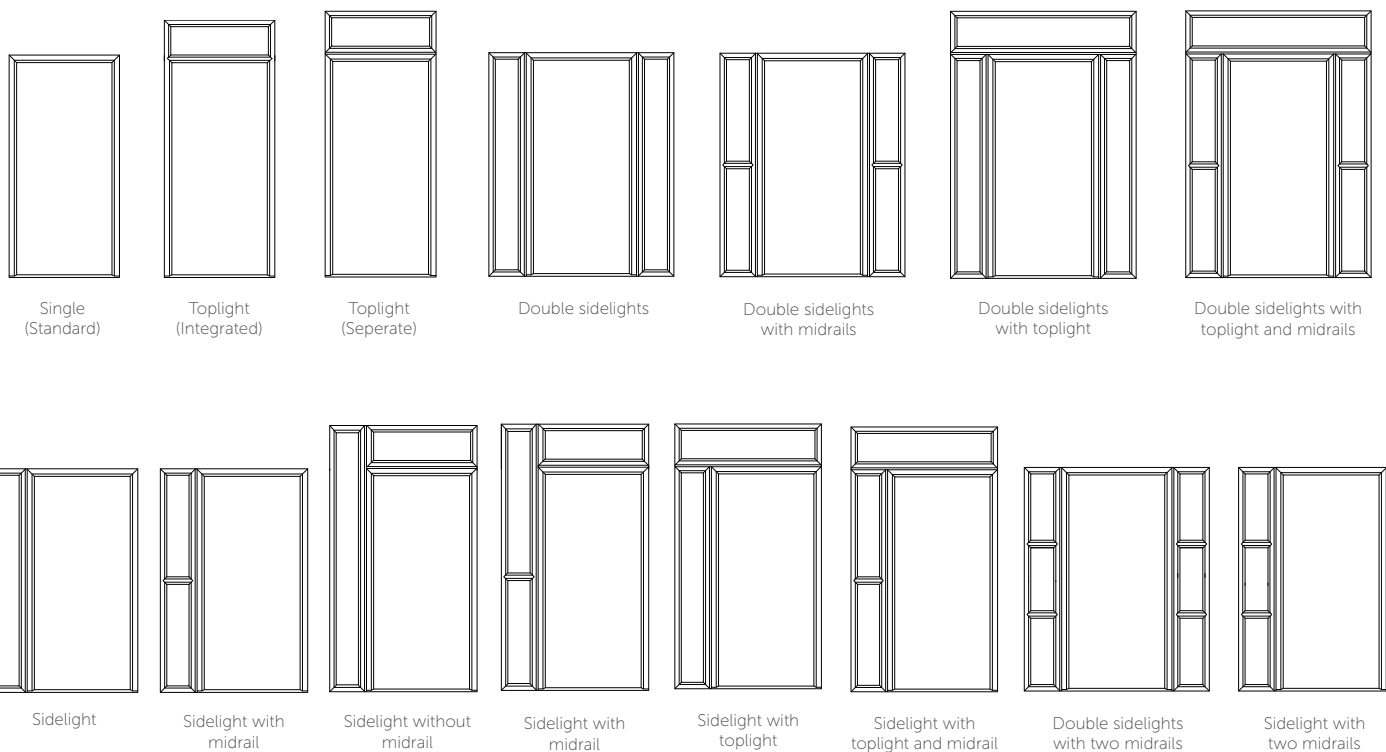

Our stunning PVC-U sidelight and toplight combinations allow sunlight to flood into your home. Available in 6 frame colours, these options will complement your composite door set perfectly.

Don't see your perfect sidelight/toplight combination? Just call us - contact details on page 57. We have infinite choices available to complement your door set.

Please note: all sidelights are available as a left or right hand option, as a glazed or solid PVC-U panel and are separate frames unless otherwise stated.

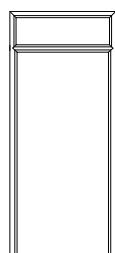

Various combinations available

Integrated Toplights

Our integrated toplights are manufactured as a single frame. Please check our min/max table for more details on available sizes on page 55.

Integrated Toplight	Height			
	Min (Narrow)	Min (Std)	Max (Narrow)	Max (Std)
Standard aluminium threshold	2093mm	2111mm	2835mm	2853mm
Part M Low aluminium threshold	2087mm	2105mm	2829mm	2847mm
Low PVC-U	2115mm	2133mm	2857mm	2875mm
Full PVC-U frame (Standard PVC-U)	2133mm	2151mm	2875mm	2893mm

Side panels

The composite door set range has four side panel designs to compliment your chosen door and are available in all 11 door colours.

A full range of frame extenders, sills and threshold options are also available. This versatility enables us to match the individual requirements of each installation, to create beautiful and practical entranceways.

Contact us for more information or a quote - contact details on page 57.

FRAME, SILL & THRESHOLD OPTIONS

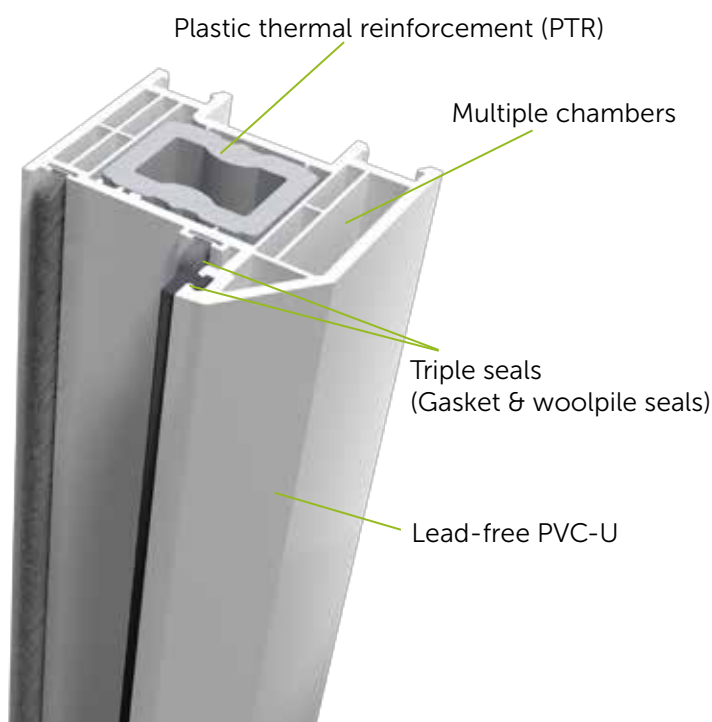

To complete your door choice

Often it is the finishing touches on a project that make all the difference. To achieve the perfect look for your home, our composite door sets offer a choice of frame, threshold and sill options.

Frame options

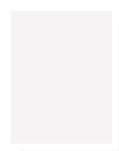

With our standard Chamfered frame style, you may select from a range of colours and woodgrains to individualise your door.

Multi-chambered outer frame
an energy efficient, clean modern style

- **Multi-chamber profile**
Our multi-chambered frames give impressive thermal performance as standard. With eight chambers, our profile will keep the entrance to your home warm and secure
- **Environmentally friendly frames**
Lead free profile and plastic thermal reinforcements (PTRs) are both thermally efficient and incredibly strong with the added bonus of being light and quick to install
- **Triple sealed**
Unlike other frames, our innovative system uses three gaskets to reduce heat loss and improve weather-tightness
- **Secure construction**
With 72% better screw retention than through steel, PTRs offer more secure fixing of hardware keeping your door rigid, stable and secure

Door sizing options

Our door sizes are dependant on the style you choose but most follow the sizing options below.

A wide range of frame extenders and panels may be added for non-standard apertures.

Door style: Moorgreen, Butterley, Kingston, Derwent, Amber, Dove, Ecclesbourne, Erewash, Lathkill, Beeston and Dearne.

	Width				Height			
	Min (Narrow)	Min (Std)	Max (Narrow)	Max (Std)	Min (Narrow)	Min (Std)	Max (Narrow)	Max (Std)
Standard aluminium threshold	804mm	840mm	984mm	1020mm	1947mm	1965mm	2069mm	2087mm
Part M Low aluminium threshold	804mm	840mm	984mm	1020mm	1941mm	1959mm	2063mm	2081mm
Low PVC-U	804mm	840mm	984mm	1020mm	1969mm	1987mm	2091mm	2109mm
Full PVC-U frame (standard PVC-U)	804mm	840mm	984mm	1020mm	1987mm	2005mm	2109mm	2127mm

Door style: Wye, Repton and Farndon.

	Width				Height			
	Min (Narrow)	Min (Std)	Min (Narrow)	Max (Std)	Min (Narrow)	Min (Std)	Min (Narrow)	Max (Std)
Standard aluminium threshold	681mm	717mm	984mm	1020mm	1947mm	1965mm	2069mm	2087mm
Part M Low aluminium threshold	681mm	717mm	984mm	1020mm	1941mm	1959mm	2063mm	2081mm
Low PVC-U	681mm	717mm	984mm	1020mm	1969mm	1987mm	2091mm	2109mm
Full PVC-U frame (standard PVC-U)	681mm	717mm	984mm	1020mm	1987mm	2005mm	2109mm	2127mm

NB The above heights do not include a sill, please add 35mm to each if a sill is required

Sill options

Our composite door sets may be specified with a choice of 3 PVC-U sill sizes:

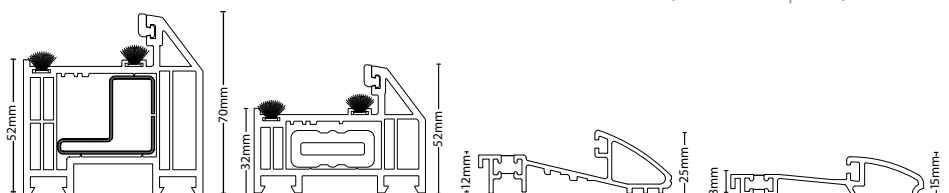

- 100mm Stub Sill
- 150mm Sill
- 180mm Sill

Threshold options

You have a choice of thresholds with our composite door sets. The standard offering is an aluminium threshold with a height of 25mm.

The low aluminium threshold is just 15mm high and creates a low step when your door is open. The low threshold is suitable for disabled and wheelchair access and is Part M compliant.

The standard PVC-U threshold provides a four sided door frame. When your door is open you will have a deeper frame to step over. However, the PVC-U option provides the tightest and most thermally efficient weather seal as the door sits behind the frame on all four sides.

CUSTOMER SUPPORT

At LPD Doors, our experienced and skilled customer care team is always on hand to provide technical advice, answer any door style enquiries, provide installation advice and to assist with project enquiries.

We ensure that our customers have all the information they require to make the best choice and to provide the best service to their customers.

How to use this brochure

In designing this brochure, we aim to provide you with all the information you need in order to choose the perfect door solution. At your finger tips, you have detailed product information, photographs, hardware choices, quality guarantees and glazing options.

When you're ready to order or if you'd like technical advice, give us a call on **0113 271 5151**.

Ordering from us (Available to Trade Customers only)

To place your order with us, you can do it in one of four ways:

- Phone :** 0113 271 5151
- Fax :** 0113 277 2728
- Email :** orders@lpddoors.co.uk
- Online :** www.lpddoors.co.uk

Quick & easy - order online

Ordering online is a quick and easy process, please visit us at www.lpd-portal.co.uk.

We have the technical know-how

Unsure what door or hardware would be best for a specific job? Our team has specialist working knowledge of our product range, give them a call for helpful technical advice and support.

You can trust us to deliver

We measure our success in accurately providing what you ordered, quickly and on time. Our composite door range is now bigger and better than ever before and we keep our stock holding high so you don't have to. Remember: keep us informed if you are planning a large project and we will make sure we have everything you need in stock.

Call our team for support and advice

Dedicated customer services team

The role of the customer care team is to resolve any queries or issues you may have and we aim to respond promptly to your needs. In the event that problems arise, please do get in touch customerservice@lpddoors.co.uk and we will do what we can to help you resolve the issue.

Contact us – we're here to help

At LPD Doors we are dedicated to providing our customers with excellent service.

Please call us on **0113 271 5151**, or email us on sales@lpddoors.co.uk to find out how we can best serve you and your business.

ACCREDITATIONS

The Kitemark is a UK product and service quality certification mark which is owned and operated by The British Standards Institution (BSI Group) and is achieved through rigorous testing only at a centre of excellence.

CE Marking is a mandatory conformity marking for products sold within the European Economic Area (EEA) since 1985 and is indicative of Masterdor's complete compliance with EU legislation.

The national body for the accreditation of testing and calibration laboratories, certification and inspection bodies, UKAS is the sole national accreditation body, of which we are a proud member.

Secured by Design focuses on crime prevention of homes and commercial premises and promotes the use of security standards for a wide range of applications and products.

ISO 14001 is an internationally agreed standard that sets out the requirements for environmental management, to improve through more efficient use of resources and reduction of waste.

PEFC Chain of Custody is the process of handling information on the origin of forest-based products and allows us to make accurate claims on the content of sustainably certified material.
